ACEC Manitoba's 5th annual 640 event celebrating National Engineering Month

This is ACEC Manitoba's 5th annual 640 event celebrating National Engineering Month in our province. Engineering Month is all about celebrating our industry with the general public, and telling others why we do what we do as professionals employed in engineering companies.

The 640 event is a night of thought-provoking presentations but with a twist on the presentation style. The format is 20 slides lasting 20 seconds each, which equals 6 minutes and 40 seconds. The presenter does not control the slides, which makes for a very interesting presentation and a challenge for even the avid public speaker. The format was originally developed by architects in Japan as a way to speed up presentations and over the past few years has been used by architects and other creative types in Winnipeg at numerous events.

Event Details

Date: Wednesday, March 27, 2019
Time: Doors open at 6:00, program to start at 6:30
Location: King's Head Pub, 120 King Street
Cost: **FREE**

Speakers
