

LEED is simply a sustainability scorecard for green buildings. Buildings can become LEED Certified as can people! The best way to break into the sustainability space is to attain the LEED Green Associate. It also shows employers and clients you have certified knowledge in the field. Since the LEED GA exam does not have a stellar pass rate, the value of the extra letters behind your name will carry even more weight.

My workshops have helped nearly 10K professionals learn the material cold (important for interview prep) AND clear the exam with a very high passing rate.
