

Loewen Windows and Doors – Manufacturing Engineer/Technologist

Loewen Windows and Doors is the leading manufacturer of premium windows and doors for the luxury architectural market in North America and abroad. In addition to proudly handcrafting enduring products that enhance beautiful architecture, we are an innovative organization that has evolved into a design-driven, technologically advanced company of the modern age. Our products are beautiful, and they are built to last through higher standards and authentic materials.

As a **Manufacturing Engineer or Technologist**, you will support operations and lead the introduction and implementation of new equipment and processes while continuously working to improve current state within the manufacturing plant.
