Are you looking for an opportunity to explore your potential?

Over the last 33 years, members of Northern Sky Architecture Inc. have built a reputation providing clients with positive and attentive service. We strive to create a collaborative corporate culture and deliver designs that are innovative, respectful and responsive to the client, the community and the environment. Northern Sky Architecture requires an Architectural Technologist to complement our drafting/document production team. We have an office hierarchy that empowers staff members to work on a variety of project types, capitalizing on the strengths of each individual, and allowing for personal and professional growth.

Experience and qualifications should include:

- Minimum 3 years architectural / structural and/or civil drafting experience;
- Experience in 3D modelling and renderings;
- Production of contract documents;
- Effective written and oral communication skills;
- Contribution to an office and project team; and
- Enthusiasm towards the profession, work and life.

Candidates registered / eligible to be registered as a C.E.T or C.Tech with Certified Technicians and Technologists Association of Manitoba (CTTAM) will be given priority.

We offer:

- Competitive compensation;
- Group Health and Dental Benefits Package;
- Transportation Subsidy;
- Team Building Events;
- Continuing Education Opportunities; and
- We work to live.

If you would like to explore a position with our firm, please forward a resume in confidence to:
