Intermediate Structural Technologist/Technician

Are you looking for a company that works on major engineering projects all over the world? Do you want to make a difference by improving the daily lives of communities worldwide? Are you seeking to join an inclusive and diverse team that you can truly count on? You've come to the right place!

Come join us in reshaping the future with AtkinsRéalis. AtkinsRéalis is dedicated in engineering a better future for our planet and its people.

AtkinsRéalis currently has an opportunity for a Civil/Structural Technologist or Technician to join our Winnipeg office. The position offers the ability to work on projects across Canada and around the world, all while being supported locally as part of a multidiscipline team of broadly experienced engineers, technologists, and technical design staff. The position offers interesting and challenging work with an opportunity for the selected candidate to progress rapidly within the company.

Your role within the team

- Preparation of REVIT drawing models and related contract drawing packages necessary for support of engineering projects.
- Utilize BIM software throughout project development and construction.
- Prepare sketches, review progress, and provide direction to technical staff during development of project drawings.
- Prepare material quantity take-offs and contribute to engineering level cost estimating assignments.

- Adhere to schedules and budgets for project deliverables.
- Undertake site data gathering, progress monitoring, and inspection activities when required.
- Comply with corporate QA procedures and documentation requirements.

Why choose AtkinsRéalis as an employer?

Because we offer:

- The opportunity to work on various major projects for internal and external clients.
- An exciting environment where work-life balance is important.
- A wide array of learning and development opportunities.
- Competitive pay, flexible benefits, an employee share plan, and a defined contribution pension plan.
- A work environment focused on health and safety.

The ideal candidate

- A diploma in Engineering Technology with CET designation, or Technician training with related experience.
- Ideally a minimum two (2) years of experience in a consulting engineering environment within Canada, or four (4) years, combined experience in consulting, construction, or similar operations within a manufacturing or processing facility.
- Previous work experience with the preparation of building modeling and final drawings, including competency in REVIT, BIM, AutoCAD and MicroStation drawing software.
- Ability to communicate efficiently with peers as needed to progress project work, while maintaining independence in the completion of assigned tasks.
- Experience with buildings, bridges, power facilities, water control structures, and large-scale infrastructure projects preferred.

Are you up for this challenge? Apply today and join our team to help engineer a Better Future for our Planet and its People.

About AtkinsRéalis

Created by the integration of long-standing organizations dating back to 1911, AtkinsRéalis is a world-leading professional services and project management company dedicated to engineering a better future for our planet and its people. We create sustainable solutions that connect people, data and technology to transform the world's infrastructure and energy systems. We deploy global capabilities locally to our clients and deliver unique end-to-end services across the whole life cycle of an asset including consulting, advisory & environmental services, intelligent networks & cybersecurity, design & engineering, procurement, project & construction management, operations & maintenance, decommissioning and capital. The

breadth and depth of our capabilities are delivered to clients in key strategic sectors such as Engineering Services, Nuclear, Operations & Maintenance and Capital.

At AtkinsRéalis, we seek to hire individuals with diverse characteristics, backgrounds and perspectives. We strongly believe that world-class talent makes no distinctions based on gender, ethnic or national origin, sexual identity and orientation, age, religion or disability, but enriches itself through these differences.
