Thank you for your interest in working for our Company. Recruiting the right talent is crucial to our goals. On April 1, 2024, 3M Healthcare underwent a corporate spin-off leading to the creation of a new company named Solventum. We are still in the process of updating our Careers Page and applicant documents, which currently have 3M branding. Please bear with us. In the interim, our Privacy Policy here:

<https://www.solventum.com/en-us/home/legal/website-privacy-statement/applicant-privacy/> continues to apply to any personal information you submit, and the 3M-branded positions listed on our Careers Page are for Solventum positions. As it was with 3M, at Solventum all qualified applicants will receive consideration for employment without regard to their race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or status as a protected veteran.

Job Description:

3M Health Care is now Solventum

Solventum is seeking Maintenance Technician/Technologist candidates to join our team in Morden, MB!

At Solventum, we enable better, smarter, safer healthcare to improve lives. As a new company with a long legacy of creating breakthrough solutions for our customers' toughest challenges, we pioneer game-changing innovations at the intersection of health, material and data science that change patients' lives for the better while enabling healthcare professionals to perform at their best. Because people, and their wellbeing, are at the heart of every scientific advancement we pursue.

We partner closely with the brightest minds in healthcare to ensure that every solution we create melds the latest technology with compassion and empathy. Because at Solventum, we never stop solving for you.

The Impact You'll Make in this Role

As a Maintenance Technician/Technologist, you will have the opportunity to tap into your curiosity and collaborate with some of the most innovative and diverse people around the world. Here, you will make an impact by:

- Supporting production equipment in a medical device healthcare environment.
- Troubleshooting and repairing electro/mechanical equipment failures.
- Maintaining accurate and up-to-date maintenance documentation.
- Working proactively to ensure production performance targets are met.
- Focusing on Continuous Improvement projects to drive improvements in OEE.
- Assisting in developing plans to correct equipment deficiencies and determining long-term solutions for equipment issues to improve reliability.
- Scheduling and performing preventative maintenance procedures to ensure proper operation.
- Ensuring that Good Manufacturing Practices & Good Documentation Practices are followed.
- Supporting Engineering projects and leading actions assigned to the maintenance group.

Your Skills and Expertise

To set you up for success in this role from day one, Solventum requires (at a minimum) the following qualifications:

- High School Diploma/GED or higher AND 5+ years of mechanical and/or electrical experience in an industrial manufacturing environment.

OR

- Certificate/Diploma in a Mechanical or Electrical Engineering Technology field

AND

In addition to the above requirements, the following are also required:

- Strong troubleshooting / problem solving skills
- Flexibility to work different shift patterns as the business requires
- Must reside near or in Morden MB

Additional qualifications that could help you succeed even further in this role include:

- Eligible for registration with CTTAM as a Technician or Technologist.

- Experience troubleshooting and repairing the following types of equipment in a manufacturing environment: motors, pumps, web handling systems, pneumatic and hydraulic systems, drive systems and related components, valves, brakes, etc.
- Demonstrated proficiency working with equipment such as AC/DC motors, servo systems, PLCs, robotics, vision systems, sensors, etc.
- Demonstrate a high level of technical ability.
- Excellent technical communication skills, both written and verbal.
- Strong organization and time management skills.
- Proficient in using the Microsoft suite of products (Word, Excel, Outlook, PowerPoint).

Work location: Onsite - 400 Route 100, Morden, MB R6M1Z9

Travel: No Travel

Relocation Assistance: Not authorized

Must be legally authorized to work in country of employment without sponsorship for employment visa status (e.g., H1B status).

Supporting Your Well-being

Solventum offers many programs to help you live your best life – both physically and financially. To ensure competitive pay and benefits, Solventum regularly benchmarks with other companies that are comparable in size and scope.

Solventum Canada welcomes and encourages applications from people with disabilities. Accommodations are available on request for candidates taking part in all aspects of the selection process.

Solventum is committed to maintaining the highest standards of integrity and professionalism in our recruitment process. Applicants must remain alert to fraudulent job postings and recruitment schemes that falsely claim to represent Solventum and seek to exploit job seekers.

Please note that all email communications from Solventum regarding job opportunities with the company will be from an email with a domain of @solventum.com. Be wary of unsolicited emails or messages regarding Solventum job opportunities from emails with other email domains.

Please note: your application may not be considered if you do not provide your education and work history, either by: 1) uploading a resume, or 2) entering the information into the application fields directly.
