

TECHNOLOGY SOLUTIONS FOR THE WORKPLACE

Water and Wastewater Operator and Certification Training Courses

Throughout the year, RRC Polytech offers a series of courses designed for basic operator training, and as exam preparation for writing the provincial Water and Wastewater (W & WW) Operator Certification exams.

Fall 2026 - Online Delivery Courses

WATER AND WASTEWATER FOUNDATIONS (COURSE CODE: WATR-1035 AND ID 288480)

Five-day Online Course: August 31 - September 4, 2026, 8:30am – 4:30pm

Fee: \$1,155 Registration Deadline: August 14, 2026

This introductory course covers the foundational skills and knowledge operators require for success when writing ABC certification exams. This course is recommended, but optional, prior to taking a Small System or a Class I certification exam preparation course. There is no exam for this course.

WATER AND WASTEWATER FOUNDATIONS (COURSE CODE: WATR-1035 AND ID 288481)

Self-directed Online Course: September 1-29, 2026 (No scheduled classes)

Fee: \$1,155 Registration Deadline: August 14, 2026

This introductory course covers the foundational skills and knowledge operators require for success when writing ABC certification exams. This course is recommended, but optional, prior to taking a Small System or a Class I certification exam preparation course. There is no exam for this course.
