REPUBLIC

Career Opportunity

INTERMEDIATE ARCHITECTURAL TECHNOLOGIST (Revit + BIM)

At **Republic,** culture isn't a line item, it's our foundation. Freedom fuels ideas, trust drives action, and fearless thinking fosters innovation.

Our studio is designed around wellbeing and performance—fitness equipment on hand and diverse spaces from relaxed café-style lounges to ergonomic sit/stand workstations. And while our space is something we're proud of, we don't believe great work is tied to a desk. We support flexible schedules and remote work so our team can perform at their best, wherever that happens to be.

We're growing and looking for an **Intermediate Architectural Technologist (Revit + BIM)** to join the #PeopleOfRepublic.

What You'll Do

- Produce high-quality construction documents for some of Republic's most complex, interesting, and diverse projects;
- Collaborate with like-minded architects, interior designers, technologists, and multi-disciplinary consultant teams;
- Participate in the building design process from project inception through to design, construction documents, and construction administration;
- Work in Revit producing detailed models and construction documents to Republic and client BIM standards;
- Participate in the identification and resolution of building technology issues; and
- Deliver a vast range of project typologies across Canada with a variety of clients.

What You Bring

- A diploma in architectural or engineering technology from a recognized institution.
- 5+ years of related experience.
- Proficiency in Revit and BIM.
- A command of construction drawings and building science, with the judgment to resolve detailing issues.
- Mechanical experience considered an asset.
- Eligibility for certification with CTTAM is considered an asset.

Why Republic?

We're intentional about how we work and who we work with. This is a place for people who want more: more collaboration, more impact. You'll have the autonomy to lead, the support to grow, and the platform to do meaningful work.

Tell us why you're our next **Intermediate Architectural Technologist (Revit + BIM)** by e-mailing your resume to: **careers@republicarchitecture.ca**.

Serious about our work - not about ourselves.
